### CAMP MEETING HAS A RIVAL

DANCING PAVILION PLANTED NEAR THE GROVE.

Secular Music Can Be Heard Plainly Over the Trees and the Managers of the Meeting Are Indignant-It is Backed by the Devil, Says the Rev. A. C. Morehouse.

OSSINING, N. Y., Aug. 8.-The annual camp meeting of the Methodist churches of the Hudson River Valley began at the old camp grounds to-night with a new and unexpected competition. A dance pavilion has been established near the line, half a mile or less from the camp. The blare of brazenly secular melodies rises over the trees and now and again is heard in the grove where all thoughts are toward holiness.

It was not until late this evening that the authorities of the campmeeting learned that the sounds of dance music came from a public establishment, opened coincidently with the campmeeting, to seek the patronage of the light-minded and the young during the continuance of the

meeting.
"It is awful! Ah me, that men should so lend themselves to the service of Satan." said the Rev. A. C. Morehouse when the news was carried to him. "It makes one shudder. But we do not fear the conflict We know that God is on our side. And the devil is backing them!"

The only transportation facilities between the village of Ossining and the campmeeting grounds is a trolley line, never too well equipped to meet the demands ordinarily made upon it, and which becomes very much flustered in the presence of anything like a crowd. Last year the village tied up all the cars in the biggest day of the campmeeting and refused to let them run until the back fares were paid. To-night the burden of the combined dance hall and campmeeting crowd paralyzed the line by running a car off the rails at a switch so that it could not be moved either way for an hour. Strenuous thought on the part of the management finally evolved the plan of turning back cars on either side of the stalled car, and so carrying delayed passengers to their destinations.

Campmeeting veterans who saw the crowds transferred around the disabled car rejoiced mightily over the greatly car rejoiced mightly over the greatly increased interest of the people of Ossining which was denoted by the number of pligrims up the hill. Friends of the dance-hall man circulated none too quietly positive statements that all the really pretty girls would get off at the pavilion. That this was a base device to allure the righteous from their interest to the compression none. a base device to allure the righteous from their journey to the campneeting none could doubt. If these suspicions were correct, however, the plotters were ignobly folled. Some pretty girls did get off when the cars stopped and the conductors announced "dancing pavilion." A barker gentleman stepped into the light of the car windows and issued hearty invitations to the rest. But the fowler spread his net in vain. The camp meeting girls—and-according to Dr. Millard and his friends, the most beautiful—went on to the service the most beautiful—went on to the service of prayer and song and left the "devil's lestival" behind.

The dance pavilion had a place in the The dance pavilion had a place in the prayers in many a tent and cottage to-night It will be no surprise to the Ossining Heights worshippers if some startling rebuke, more than mere human disapproval, shall be meted out to those who nightly step to the strains of "Mamie York" and "Sweet Rosie O'Grady" within little more than a stone's throw of the Tabernaele.

It is understood that an express onalaught

stone's throw of the Tabernacle.

It is understood that an earnest onslaught is to be made by Elder Millard and Committeemen Brummell, Morehouse and Crittenton on the dangers which beset those who come out from the village to the meetings. As is intimated in the words of the Rev. Mr. Morehouse, there is a feeling that the establishment of the dancing pavillon over the commenting, onening on the the establishment of the dancing payinon near the campmeeting, opening on the same night, is a direct challenge from the forces of evil to the workers for righteousness. There is every disposition to meet the issue aggressively. There was a rumor that the dance hall people are to attempt to carry on their business on Sunday night. Interesting complications, it is said, will surely result from such a course. It would not surprise some if an invading party from the camp should be organized to go down the road and meet the dance hall people on their own ground.

There are some of the campers who favor an appeal to the authorized to the authorized to the surprise of the campers.

There are some of the campers who favor an appeal to the authorities of the trolley road to order that cars shall be run past the pavilion without stopping. Cer-tainly the trolley management will be asked to forbid its conductors from announcing

to forbid its conductors from announcing to the passengers that the dance pavilion is open for business. The pavilion to-night was crowded with young men and women. The first meeting of the Camp Meeting Association was held at half-past 7 o'clock to-night. The Rev. Mr. Carrer of Brooklyn preached and there was an enthusiastic serivce of prayer, song and testimony. Among those on the platform was the Rev. Herman P. Faust, who was formerly at the head of a Presbyterian mission to the Hebrews in Allen street. New York. Mr. Faust had some friction with the Presbytery. Though he attends this Methodist camp meeting and shares prominently in its devotions, he has not renounced the Presbyterian Church.

its devotions, he has not renounced the Presbyterian Church.
One feature of the opening night was observed with satisfaction by everybody. There are almost invariably present at campmentings a number of young men who think that it is "smart" to scoff and be boisterous around the outskirts of the group. They are sometimes accompanied grove. They are sometimes accompanied by girls who encourage [their mischief making by giggling. There was a notice-able absence of such as these last night. It was suggested that the worldly enternt below had been more attractive

"The presence of young people who came to the grove to be amused rather than for the good of their souls," said one of the elders to-day, "was not pleasant to us at all.
But there was always the chance that

their hearts might be touched, and that coming to scoff they might remain to pray. Unwelcome as their behavior was here, we would rather have had them with us than with those who have degraded their souls to their heels."

Arrangements have been made for a steamer leaving the foot of Franklin street.

official Call Made and "No Goods Pour

SARATOGA, N. Y., Aug. 8 .- The Saratoga Club, known all over the United States as Morrisey's clubhouse and conducted by Richard A. Canfield of New York, was raided in approved police style early this morning. Canfield has been arrested twice before within a week, but only once before in its history of nearly half a century has the club been raided. The raid was made on a warrant secured at the instigation of former President of the village, Caleb W. Mitchell, who has declared war against Canfield beause Mitchell is not permitted by the local authorities

to run a poolroom near the racetrack. The warrant was put in the hands of roundsman, who descended upon the famous gambling house with a squad of seven policemen. The bluecoats entered the building by the Putnam street en trance. A number of ladies and gentlemen were taking supper in the restaurant, but so quietly did the policemen make their entrance that hardly a person in the restaurant, which is at the left of the entrance, knew that a raid was in progress. The gaming tables had been doing a good business all the evening, but when the policemen walked into the room where policemen walked into the room where some of the most prominent men the country produce have won and lost big piles of money, not a table was in sight and a stack of chips or a pack of cards could not be found with a dark lantern and search warrant. After paying his official call and indorsing on the warrant "no goods found," or words to that effect, the roundsman about-faced his squad and marched them into the street. Then he returned, thanked Mr. Canfield for all the courtesies extended and told the college-bred gambler that he was sorry to have to arrest him on the charge of being a common gambler.

"What, again?" Canfield inquired suavely "Really, I fear you are flattering me with too much attention."

Police Justice Delaney happened by accident to have been dancing a cotillon or something else late on Wednesday night and happened, by accident of course, to remember that he wanted to take something home from his office. The roundsman happened to see the light in the Magistrate's office and concluded to see if Delaney happened to be within. He was and Canfield was arraigned and held in \$1,000 ball for examination to-morrow morning at 11 o'clock. Then he went back to the club, business having been resumed in the meantime. some of the most prominent men the coun-

It is expected that there will be some
fun at Canfield's examination. Ben Steinhardt of Howe & Hummel's office has been
retained to look out for the legal end of
Mitchell's fight and he will be there to
interject his vigorous if rheumatic personality into the examination of the prisoner. Steinhardt has been here ten days
and he is hoping that the job will last all
summer. The climate of Saratoga is fine

The clubhouse was doing business as usual to-night and there was plenty of play. The probabilities are that it will continue to do business in spite of the Mitchell crusade. The people of the town don't want the clubhouse closed, because its closing would materially affect the summer's business. The town is packed and jammed now and the natives want it to stay so as long as possible. Therefore, these raids are not popular here. Mitchell insists, however, that the people are with him and says that he purposes to fight it out on this line if it takes all this summer and the next to close up Canfield.

#### TO CLEAN THE COLUMBIA. It Will Take Fifty Men Two Weeks to Finish the Job.

Chief Boatswain Anderson of the Brooklyn Navy Yard has begun work on cleaning up the steel cruiser Columbia, which, temporarily at least, is to take the place of the condemned Vermont as a training ship. The chief boatswain estimates that it will take fifty men two weeks to put her in shape to house the jackies.

"It would be a crime," he said, "to put for they would die like rats. Capt. Snow has examined the Columbia. He knows the shape she is in, and I am sure he has no intention of putting the men in her until she is clean enough to receive them without danger to their health."

The valuable machinery of the vessel is also described as in a deplorable condition. An official connected with the Steam Engineering Department said:

From one end to the other water has been left to drip on the machinery and much of it will have to come apart to be cleaned. Some of it cannot be cleaned aboard the ship. An expenditure of several thousand dollars will be required to complete the work, which this department will not undertake to do in less than three months and with twenty-five men. All of this could have been avoided by the ordinary care given to a vessel out of commission by the preservation squad."

BOGUS WAR HERO DESERTS BELLE FOR KATIE.

Filled Out a Marriage Certificate and Gave It to the Former to Show the Folks at Home—Didn't Know It Was Forgery -He Is Held for Abandonment.

"Major" Benjamin Franklin Waite, 43 rears old, who is really a printer, although, officer with a brilliant war record, was arraigned yesterday before Magistrate Naumer in the Adams street court in Brooklyn on a charge of abandonment made by Belle Snell, 22 years old. The warrant for his arrest was issued on Tuesday, but before it could be served by Court Officer Maloney he was told what was in the wind by Miss Katie Snell, 18 years old, a sister of the complainant. Accompanied by her he hurried from his apartments at 275 Adams street, and took refuge in the Tenderloin district in Manhattan. Early yesterday morning Maloney, who had Belle Snell with him, nabbed him in Twentieth street near Third avenue, while he was arm-in-arm with the other sister. The trip back to Brooklyn was enlivened with frequent spats between Belle and Katie.

Belle exhibited much joy when the Mayor" was put behind the bars in the Adams street station, while her sister wept bitterly and was so much overcome that he sergeant in charge came near sending

for an ambulance surgeon.

The varied emotions of the sisters remained unchanged when the "Mayor" was arraigned before Magistrate Naumer was arraigned before Magistrate Naumer yesterday morning. Belle's story was to the effect that about eighteen months ago she made the acquaintance of the accused at a hop in Manhattan, at which time he was delivering lectures on his mythical experiences as a military hero. She admitted that she was greatly infatuated with him and that she interposed no chiesting to his matrimonial proposals. objection to his matrimonial proposals although he confessed that he had another wife living somewhere. A few questions by the Court elicited the fact that there had been no regular ceremony, but that Waite had procured the certificate and, filling it out, signed it with the fictitious name of George F. Pollard. He told her, she said, that the marriage was just as binding as if a minister had officiated and that she could exhibit the certificate to her folks, if they asked her any questions. Belle admitted that she got along very smoothly with Waite until she found out that her sister Katle had supplanted her in his affections and then there was a peck of trouble for all hands.

katle had supplanted her in his affections and then there was a peck of trouble for all hands.

The accused had this to say about the unceremonial marriage: "Oh, yes, I drew it up. I bought the certificate. Belle was going home to visit her folks, who live on a farm near Elmira, and wanted something to show them she was married. So I got the certificate and filled it out for her. The name Pollard was, of course, fictitious."

"Don't you know that's a forgery?"

"What!" he exclaimed, "to sign a fictitious name. Is that forgery? Well, well, I didn't know it."

"You have another wife, haven't you?"

"Yes, I suppose I have, "he said.

"Were you a Major in the Regular army?"

"No, that's a dream. I'm a printer."

Waite was sent to jail in default of \$200 bail, pending a further hearing on Tuesday next. Belle hurried from the court room at the close of the proceedings.

#### THEFTS AT ART MUSEUM. No Complaint Because Attendant Said No

When He Meant Yes.

William J. Holden of 306 West 114th stree was arraigned in Jefferson Market polic court yesterday, charged with the theft of two fire extinguishers, valued at \$50, from the Erie Railroad freight house at the foot of West Twenty-third street. Lewis F. Esler, the freight agent, said that on July 27 Holden assured him that he was authorized to examine the railroad's fire extinguishers and that subsequently two of the extinguishers were missing. Holden promised to return the extinguishers, but failed to do so. A visit to an office address at 60 New street, which was printed on a card Holden left in the freight office, disclosed the fact that Holden did not have an office there. Detectives Butler and McCarthy of the West Twentieth street station, who arrested Holden, said that he had taken fire extinguishers from the Army Building and the Metropolitan Museum

Holden protested to Magistrate Mayo that he was a reputable business man. The Erie agent consented to withdraw the complaint if Holden would restore the fire extinguishers. Holden did so.

And New Light for Philbin on Protected. Vice in Diamond's Precinct—Letter From "Jane Doe" Complains of Condi-

tions in the Shadow of Old St. Mark's. District Attorney Philbin gave the crooked men of the police an additional scare yesterday when he announced that certain patrolman had given him new nformation concerning the condition of Capt. Diamond's precinct and the case of Wardman Bissert. Mr. Philbin refused to divulge the nature of the facts or the name of the policeman or his precinct. Mr. Philbin is investigating the facts given to him by the patrolman, and he said that not until the conclusion of his investigation could he tell how great the value of the information was. There is reason for believing that the result will be a disclosure of the relations some of the police of the East Fifth street station have with the keepers of disorderly houses.

Policemen of all grades are guessing who the "squealer" may be. There was a general suspicion that the "patrolman" was Bissert himself, and the rumors that he would turn State's evidence were revived.

Philbin forwarded to him yesterday a full transcript of the minutes of the Bissert trial. It is believed that Commissioner Murphy has no particular friendship for Diamond, and would not be averse to anticipating the District Attorney in taking steps against the captain.

#### ACCUSED OF MAIL FRAUDS. M. L. Archibald, Coal Merchant, Arrested by Post Office Inspectors.

YONKERS, N. Y., Aug. 8.-Merritt L Archibald, living at 68 Lomarline avenue this city, was arrested to-night by United States Post Office Inspectors Cortelyou and Boyle and Detective John Cahill. He is charged with using the mails with intent to defraud. The detectives would not give out the specific charge. He was taken to New York on the 9:30 train. When questioned by Inspector Cortelyou he said that he was the proprietor of a coal office at 5 First street, New York, which was run under the name of Greenville & Co. It is in connection with this office it is said that

Archibald has figured in several lawsuits of late. His first trouble was aboutwo years ago when he was sued by a Pennsylvania firm for an unpaid bill for \$600.

This led to the contempt proceedings in
which his wife figured.

It is supposed at Police Headquarters in this city, whither the prisoner was taken, that the man is wanted in connection with the swindling of several Pennsylvania lumber dealers, told about in The Sun on Wednesday, by a Hoboken man who on Wednesday, by a Moboken man who did business through the mails under the firm name of a reputable coal and ice com-pany of Jersey City. It was said at Police Headquarters that a warrant for the pris-oner was expected from Hoboken this morning.

# LOST HIS EYE ON A YACHT.

William L. Brooks. STAMFORD, Conn., Aug. 8.-William L. Brooks, a well-known yachtsman, is at the home of his sister, Mrs. A. M. Hurlbutt on Main street, suffering from injuries received aboard a yacht off New London a few days ago. As a result of an accident Mr. Brooks has lost one eye and only the most skilled medical attendance and careful

attention has saved the other. Mr. Brooks was aboard a friend's yacht off New London at the time of the accident. He was about to put a siphon of vichy water into an icebox when the siphon exploded and the heavy glass was sent flying into his face. One eye was punctured. Medical attendance was obtained at once for the injured man, and as soon as possible he was sent to Stamford. Dr. R. O. Born of New York was summoned and decided that it would be necessary to remove the injured eye. He performed the operation with the assistance of D. A. M. Hurlbutt, the patient's brother-in-law. The other eye was hurt in the accident and it was feared for a time that it might be affected seriously but this will probably not be the case. Mr. Brooks will be confined to the house for

ACCUSED FIREMAN MISSING.

Manley Does Not Appear for Trial and Case Goes to District Attorney. Assistant Foreman John J. Manley of

Engine 26 did not appear at Fire Headquarters yesterday when his case was called for trial by Deputy Commissioner William J. Tully, and he will doubtless be dismissed from the force for absence with-out leave. In his absence he could not be tried on the charge detailed in The Sux, of yesterday that he took money from applicants for appointment as firemen. applicants for appointment as incremen, promising to get them appointed. The evidence on this charge will be turned over to the District Attorney. Manley was tried once and fined heavily for getting money from a woman on promise of marriage. He pretended that he divided the money he took from applicants for appointment or promotion with a department official and an attache of the Civil Service Bureau. District Attorney Philbin has appointed Deputy Assistant District Attorney Sanford to investigate the case.
